## 农业贸易与乡村振兴：全球经济发展中的机遇与挑战

2019年12月2日，中国北京

随着科技和数字化的影响不断扩大，全球的农业贸易系统发展正处于快速增长的通道中。与此同时，全球的农业贸易系统也受到了城镇化进程加快，人们收入水平不断提高以及消费者偏好不断变化等因素的积极影响。然而，在另一方面，全球农业发展也正遭受着环境退化、土地与水资源短缺以及气候变化等因素的制约，这些因素无疑会对未来农业增长带来一定的不利影响。

各国政府需要制定不同的政策来在经济层面、社会层面以及环境层面上促进农业的可持续发展，振兴农业经济，以应对各种各样的挑战。与此同时，许多农村地区需要抓住农业贸易发展的机遇，努力克服包括农业和粮食部门的发展瓶颈。中国政府一直在积极应对这些挑战，并在2018年9月发布了《国家乡村振兴战略规划（2018-2022年）》，支持与鼓励优化农业产能，增加农民收入，构建现代农业产业体系、生产体系、经营体系，加快推进农业农村现代化建设。

在这个联系日益紧密的全球经济中，贸易对于增加市场机会至关重要，同时，加强在农业政策方面的交流与沟通也有助于世界农业贸易的发展。由农业农村部农业贸易促进中心（ATPC）、联合国粮食及农业组织（FAO）和经济合作与发展组织（OECD）联合举办的讨论会曾就围绕制定新农业政策和评估其影响的主题展开研究和讨论。这些政策属于广泛政策框架的一部分，旨在促进农业生产力的长期增长和增强资源的可持续利用与开发，从而更好地解决粮食安全問題。

在上述的背景下，今年的会议将主要探讨以下几个议题：1. 农产品市场动态及其对粮食安全的影响；2. 国际视角下的农业政策；3. 农业与食物系统创新；4. 乡村振兴的国别经验。

## 农业贸易与乡村振兴国际会议日程

8:30-10:10	<p><b>第一节：农产品市场动态及其对粮食安全的影响</b></p> <p>本节会议聚焦的内容主要包括农产品市场动态与农业政策，重点讨论分析农产品市场与农业政策之间的相互影响关系。</p> <p>本节会议将首先简要概述分析全球和区域农产品市场的最新情况和未来发展趋势。然后将以一些特定农产品为例，通过研究它们的生产、需求、贸易以及全球市场动态情况，来透析全球农产品食品体系面临的风险和挑战。可能的议题主要包括：</p> <ul style="list-style-type: none"> <li>● 全球农产品食品市场的发展现状如何？其潜在的驱动力是什么？</li> <li>● 生产者（包括小规模农户）应如何应对不断变化的市场条件？</li> <li>● 联系日益密切的全球农产品市场所面临的挑战和机遇是什么？</li> </ul> <p><b>会议主持人：彭廷军，农业农村部国际合作司副司长</b></p> <p><b>报告演讲（每人 15 分钟）：</b></p> <ul style="list-style-type: none"> <li>● 全球棉花市场发展现状 — Georgios Mermigkas, FAO</li> <li>● 中国农业贸易对粮食安全的影响 — 朱晶教授，南京农业大学</li> <li>● 中国农产品进口格局特征及进口多元化分析 — 杨静博士，ATPC</li> <li>● 非洲猪瘟的传播对全球农产品市场的中期影响 — Mischa Tripoli, FAO</li> </ul> <p><b>点评人：田维明教授，中国农业大学（10 分钟）</b></p> <p><b>提问与讨论环节（总共 30 分钟）</b></p>
10:10-10:25	<p><b>茶歇</b></p>
10:25-12:05	<p><b>第二节：国际视角下的农业政策</b></p> <p>本节会议主要聚焦的内容：农业政策是农产品食品市场的重要组成部分。自 2001 年的 WTO 谈判以来，不仅农产品市场发生了重大变化，各国的农业政策也在不断改变。在政府预算资源有限的前提下，政府需要选择最有利于提高农业生产能力，可持续性，抵御气候变化的能力和应对其他风险的农业政策。随着全球化的不断发展以及农场和市场层面的结构变化，全球农产品食品贸易中出现了新的问题，这反过来可能会影响 WTO 的谈判进展。与此同时，许多国家已经与部分全球贸易伙伴签订了双边的自由贸易协定，相比之下，多边贸易谈判的进展较为缓慢。</p> <p>本节会议将从全球和区域角度讨论政策观点，研究农业政策的模式、WTO 谈判中的关键问题、通过优惠贸易协定取得的发展以及不同政策方法的潜在影响。可能的议题主要包括：</p> <ul style="list-style-type: none"> <li>● 农业政策是如何通过整合全系统的方式来推动农产品食品市场的发展？</li> <li>● WTO 的农业谈判中有哪些关键问题？</li> <li>● 双边自由贸易协定对多边贸易体系建设什么影响？对各国实现经济目标</li> </ul>

	<p>产生了什么影响？</p> <p><b>会议主持人：张晓婉，农业农村部农业贸易促进中心副主任</b></p> <p><b>报告演讲（每人 15 分钟）：</b></p> <ul style="list-style-type: none"> <li>• 农业政策格局的变化 — Florence Bossard and Silvia Sorescu, OECD</li> <li>• 解读中国“三农”政策调整 — 江文胜副主任，农业农村部办公厅</li> <li>• 公共储备与进口增加 — Georgios Mermigkas, FAO</li> <li>• 技术性贸易措施对我国农产品出口企业的倒逼效应研究 — 谢众民博士，ATPC</li> </ul> <p><b>点评人：何秀荣教授，中国农业大学（10 分钟）</b></p> <p><b>提问和讨论环节（总共 30 分钟）</b></p>
12:05-13:30	<b>午餐</b>
13:30-15:25	<p><b>第三节：农业与食品体系创新</b></p> <p>本节会议主要聚焦的内容：随着农业和粮食部门面临的挑战变得越来越严峻，新知识的产生和知识的转移也将可能导致农业生产方式的变化。此外，随着农产品食品系统变得越来越复杂（生产系统越来越分散），农民将需要更加先进的技术来保持竞争力。此类技术的传播和应用程度反过来又会影响农产品食品生产和贸易的格局。</p> <p>本节会议将首先侧重于讨论创新政策在指导与农产品食品生产，加工和销售有关的技术和实践的发展和传播中的作用。然后，将进一步研究技术创新的具体示例，包括大数据，用于生产的数字技术，电子商务等，以及它们在改变农业生产和农产品贸易中的作用。可能的议题主要包括：</p> <ul style="list-style-type: none"> <li>• 创新技术在农产品食品全球价值链中的作用？</li> <li>• 需要什么监管环境来利用发挥创新潜力，振兴农村地区？需要采取什么政策来确保小农户能够获得新技术？</li> <li>• 在资源有限的前提下，如何在科研和创新方面的投入与农户能够获得生产技术的培训和推广服务中的切实回报之间取得平衡？</li> </ul> <p><b>会议主持人：Georgios Mermigkas, FAO</b></p> <p><b>报告演讲（每人 15 分钟）：</b></p> <ul style="list-style-type: none"> <li>• 计算机视觉与表型技术在农业领域的应用 — 孙坦副院长，中国农业科学院</li> <li>• 食物与农业创新：一些国家的主要发现 — Shingo Kimura, OECD</li> <li>• 电子商务推动农产品贸易 — 罗琳总监，阿里巴巴集团</li> <li>• 追踪动物疾病和残留物的新技术 — Mischa Tripoli, FAO</li> <li>• 国联水产供应链创新分享 — 赵红梅，湛江国联水产开发股份有限公司</li> </ul> <p><b>点评人：Silvia Sorescu, OECD（10 分钟）</b></p> <p><b>提问和讨论环节（总共 30 分钟）</b></p>
15:25-15:40	<b>茶歇</b>

15:40-17:20	<p><b>第四节：乡村振兴——国别经验</b></p> <p>本节会议主要聚焦的内容是：全球农产品食品系统是一个由利益相关者组成的复杂网络，这些利益相关者分别从事生产，销售，分销和消费等活动。农村地区是该网络的重要组成部分。中国一直在大力推进乡村振兴战略，该战略不仅考虑到农业和粮食相关活动的广泛范围，而且考虑到农村非农机会和城乡联系的广阔背景。</p> <p>本节会议的目标是通过研究特定国家乡村振兴的方法和农业与农村发展经验，讨论政策观点。可能的议题主要包括：</p> <ul style="list-style-type: none"> <li>• 考虑到农业和粮食相关活动的广泛范围，所涉及的环境和利益相关者，对乡村振兴采取整体方法意味着什么？</li> <li>• 更深入地了解贸易的作用，参与全球市场如何帮助实现农村地区的增长潜力？</li> <li>• 这些方法与可持续发展目标（SDG）有什么联系？</li> </ul> <p><b>会议主持人：Silvia Sorescu, OECD</b></p> <p><b>报告演讲（每人 15 分钟）：</b></p> <ul style="list-style-type: none"> <li>• 全球视角下的乡村振兴思考 — 陈志钢教授，浙江大学和国际食物政策研究所</li> <li>• 韩国的农村振兴经验 — 金容烈博士，韩国农村经济研究院</li> <li>• 中国乡村振兴战略 — 程国强教授，同济大学</li> <li>• 乡村振兴战略对农业贸易的影响 — 张军平处长，ATPC</li> </ul> <p><b>点评人：Mischa Tripoli, FAO（10 分钟）</b></p> <p><b>提问和讨论环节（总共 30 分钟）</b></p>

## **Agri-food Trade and Rural Revitalization: Perspectives on Challenges and Opportunities in an Interconnected Global Economy**

2 December 2019 | Beijing, China

Agri-food systems around the world are undergoing rapid change. They are becoming increasingly interconnected and shaped by new technologies and digitalisation. This agricultural transformation takes place in the presence of an unabated urbanization process with rising income levels and changing consumer preferences. It also takes place in the presence of environmental degradation, pressures on land and water resources as well as climate change, all of which take a toll on the resource base required for future production growth.

Policymakers need to respond to this wide array of challenges. They have to develop strategies that promote economically, socially and environmentally sustainable forms of agriculture, revitalising rural economies. In order to tap into opportunities opening up to them, many rural regions need to overcome specific bottlenecks, including in the agriculture and food sectors. With its National Strategic Plan for Rural Revitalization 2018-22 released in September 2018, China has been making significant efforts to respond to these challenges. The plan foresees new approaches to support agri-businesses, deliver agricultural modernisation, and create vertically integrated rural industries.

In this increasingly interconnected global economy, where trade remains essential to reap new market opportunities, a global dialogue to identify innovative policy approaches becomes ever more important. Previous workshops organised jointly by the Agricultural Trade Promotion Center (ATPC) of the Ministry of Agriculture and Rural Affairs, OECD and FAO explored options for devising new policy approaches and assessing their impacts. These policies can inform a broader policy framework, directed towards long-term productivity growth and sustainable resources use, coherently addressing food security concerns.

Against this background, this year's conference pursues several objectives. First, it explores the dynamics of agricultural markets and their implications for food security within the framework of an interconnected global economy. Second, it aims to explore the synergies and trade-offs of different policy approaches aimed at creating a more productive, sustainable and resilient agri-food system. Finally, it gathers specific country and regional experiences, with a view to focusing on future agricultural policy solutions for China and the world.

## Conference Agenda

<b>8:30-10:10</b>	<p><b>Session I: Agricultural Markets Dynamics and their Implications for Food Security</b></p> <p><i>Context and objectives of the session:</i> Agricultural market dynamics continue to be at the heart of policy debates; markets shape policies, policies affect markets. This session will set the stage by providing a brief overview of recent and projected trends in agricultural markets at global and regional levels. It will then focus on the risks and challenges faced by agri-food systems, through examples of selected agricultural products that explore the production, demand and trade situation as well as the implications of market dynamics for food security. Potential questions for discussion include:</p> <ul style="list-style-type: none"> <li>• How are agri-food markets developing and what are the underlying drivers?</li> <li>• How are producers, including small-scale farmers, able to respond to dynamically changing market conditions?</li> <li>• What are the challenges and opportunities created by increasingly interconnected agri-food markets?</li> </ul> <p><i>Chair:</i> Peng Tingjun, Department of International Cooperation, MARA</p> <p><i>Presentations</i> (15 minutes each):</p> <ul style="list-style-type: none"> <li>• Global Cotton Market Situation (<i>Georgios Mermigkas, FAO</i>)</li> <li>• Agricultural Trade and Food Security in China (<i>Professor Zhu Jing, Nanjing Agricultural University</i>)</li> <li>• China's Agricultural Import Pattern and Analysis on Import Diversification (<i>Dr. Yang Jing, ATPC</i>)</li> <li>• Medium-term Impacts of a Further Spread of African Swine Fever on International Agricultural Markets (<i>Mischa Tripoli, FAO</i>)</li> </ul> <p><i>Discussants</i> (up to 10 minutes)</p> <p style="text-align: center;"><i>Professor Tian Weiming, China Agriculture University</i></p> <p><i>Open discussion</i> (30 minutes): all participants</p>
<b>10:10-10:25</b>	<i>Coffee/tea break</i>
<b>10:25-12:05</b>	<p><b>Session II: Agricultural Dimensions of Agricultural Policies</b></p> <p><i>Context and objectives of the session:</i> Agricultural policies are a key part of the changing landscape of agri-food markets. Not only have agri-food markets changed significantly since the latest round of WTO negotiations began in 2001, agricultural policies have evolved in parallel. In the context of limited budgetary resources, governments need to choose those policies that are best suited to increase productivity, sustainability, resilience to climate change and other risks. With continuous globalisation and structural change at both farm and market level, new issues (e.g. concentration in agri-food supply chains) are emerging in global agri-food trade, which in turn may affect the WTO negotiations process. At the</p>

	<p>same time, many countries have been entering into preferential free trade agreements with a subset of global trading partners, reflecting the slow progress at the multilateral level.</p> <p>This session will discuss policy perspectives through global and regional lenses, looking at patterns of agricultural policies, key issues in the WTO negotiations, developments through preferential trade agreements, as well as potential impacts of different policy approaches. Potential questions for discussion include:</p> <ul style="list-style-type: none"> <li>• How can agricultural policies integrate a system-wide approach for food and agriculture moving forward?</li> <li>• What are the key issues in the agricultural negotiations in the WTO?</li> <li>• What role do preferential trade agreements play vis a vis the multilateral trading system, in providing the policy space for countries to pursue their national objectives?</li> </ul> <p><b>Chair:</b> <i>Zhang Xiaowan, ATPC</i></p> <p><b>Presentations</b> (15 minutes each):</p> <ul style="list-style-type: none"> <li>• Changing Landscape of Agricultural Policies (<i>Florence Bossard and Silvia Sorescu, OECD</i>)</li> <li>• A New Understanding of China’s “Sannong” Agriculture, Rural Community and Farmer Policy (<i>Jiang Wensheng, The General Office, MARA</i>)</li> <li>• Public Stockholding and Import Surges (<i>Georgios Mermigkas, FAO</i>)</li> <li>• Research on the Forced Effect of Technical Measures to Trade on Chinese Agricultural Exporters (<i>Dr. Xie Zhongmin, ATPC</i>)</li> </ul> <p><b>Discussants</b> (up to 10 minutes)</p> <p><i>Professor He Xiurong, China Agriculture University</i></p> <p><b>Open discussion</b> (30 minutes): all participants</p>
12:05-13:30	<b>Lunch</b>
13:30-15:25	<p><b>Session III: Innovation in the Agriculture and Food System</b></p> <p><b>Context and objectives of the session:</b> As the challenges faced by the agriculture and food sectors become increasingly important, so will knowledge generation and knowledge transfer that can lead to changes in farm practices. Moreover, as agri-food systems become more complex – with increasingly fragmented production systems – farmers will require ever more advanced innovation and technological skills to remain competitive. The extent to which such technologies are diffused and applied can in turn influence the patterns of agri-food production and trade. This session will first focus on the role of innovation policies in guiding the development and diffusion of technologies and practices related to production, processing and marketing of agri-food products. It will then also look into specific examples of technology innovation – including big data, digital technologies for production, e-commerce, among many others – and their role in transforming agricultural production and agri-food trade. Potential questions for discussion</p>

	<p>include:</p> <ul style="list-style-type: none"> <li>• What roles do innovative technologies play in the context of agri-food global value chains?</li> <li>• What regulatory environment is required to harness the potential of innovations in revitalising rural areas? What policies are needed to ensure that smallholder farmers can access new technologies?</li> <li>• Given limited resources, how can the need for investment in research and innovation be balanced with the need for training and extension services that can enable farmers to use existing technology?</li> </ul> <p><b>Chair:</b> <i>Georgios Mermigkas, FAO</i></p> <p><b>Presentations</b> (15 minutes each):</p> <ul style="list-style-type: none"> <li>• Application of Computer Vision and Phenotype Technology in Agriculture (<i>Sun Tan, Chinese Academy of Agricultural Sciences</i>)</li> <li>• Innovation in Food and Agriculture: Main Findings from Selected Country Reviews (<i>Shingo Kimura, OECD</i>)</li> <li>• Widen Agricultural Market through E-commerce (<i>Luo Lin, International Government Affairs of Alibaba Group</i>)</li> <li>• New Technologies in Tracking Animal Diseases and Residues (<i>Mischa Tripoli, FAO</i>)</li> <li>• Guolian Group Supply Chain Innovation (<i>Zhao Hongmei, Guolian Aquatic Group</i>)</li> </ul> <p><b>Discussants</b> (up to 10 minutes)</p> <p style="text-align: center;"><i>Silvia Sorescu, OECD</i></p> <p><b>Open discussion</b> (30 minutes): all participants</p>
15:25-15:40	<b>Coffee/tea break</b>
15:40-17:20	<p><b>Session IV: Rural Revitalization – Country Experiences</b></p> <p><b>Context and Objectives of the session:</b> The global agri-food system is a complex network of stakeholders engaged in production, marketing, distribution and consumption. Rural regions are an important component of this network. China has been making significant efforts to advance a rural revitalization strategy, considering not only the wide scope of agriculture and food-related activities but also the broader context of rural non-farm opportunities and rural-urban linkages. This session will aim to discuss policy perspectives through country-specific approaches and experiences in agriculture and rural development. Potential questions for discussion include:</p> <ul style="list-style-type: none"> <li>• Considering the wide scope of agriculture and food-related activities, contexts and stakeholders involved, what does a holistic approach to rural revitalization imply?</li> <li>• Looking deeper into the role of trade, how can participation in global markets help realise the growth potential of rural areas?</li> </ul>

	<ul style="list-style-type: none"> <li>• What are the links of these approaches to the Sustainable Development Goals (SDGs)?</li> </ul> <p><b>Chair:</b> <i>Silvia Sorescu, OECD</i></p> <p><b>Presentations</b> (15 minutes each):</p> <ul style="list-style-type: none"> <li>• Global Reflection on Rural Revitalization (<i>Kevin Z Chen, Zhejiang University and International Food Policy Research Institute</i>)</li> <li>• Experiences on Rural Development in Korea: Focusing on Rural Industrial Policy (<i>Dr. Kim Yong Lyoul, Korea Rural Economic Institute</i>)</li> <li>• China Rural Revitalization Strategy (<i>Professor Cheng Guoqiang, Tongji University</i>)</li> <li>• The Influence of Rural Revitalization Strategy on Agricultural Trade (<i>Zhang Junping, ATPC</i>)</li> </ul> <p><b>Discussants</b> (up to 10 minutes)</p> <p><i>Mischa Tripoli, FAO</i></p> <p><b>Open Discussion</b> (30 minutes): all participants</p>
